

DID YOU KNOW?

Water Coverage (India)

- **Maharashtra Expands Drought Declaration to 305 Talukas:**
Maharashtra expanded its drought declaration from **265** to **305** talukas across **32** districts after an **18.8%** monsoon deficit, with **37.3%** of its area in extreme or exceptional drought. **Marathwada** (38% deficit, 74 talukas) and **Vidarbha** (27% deficit, 56 talukas in Amravati) are worst hit. Official guidelines classify moderate drought at **26%-50%** rainfall deficiency and severe beyond **50%**. Kharif droughts must be formally notified by **October 31**; Rabi by **March 31**.
- **MHA Adds Lightning, Heatwaves to Calamity List:** The MHA, on the **16th Finance Commission's** recommendation, notified lightning and heatwaves...

... as calamities for **2026–31**. Yet Bakarwal herders remain underserved: relief is capped at **₹4,000** per small animal, limited to **30** animals per household—covering only a third of a **90-animal** loss like the May lightning strike at Dhana Dok, Ganderbal. Rajouri recorded **914** weather-killed livestock (**₹1.42 crore**) in **2022–23**, with just **₹86.8 lakh** compensated, exposing district-boundary and mobility gaps in disaster assessment.

Water Coverage (Global)

- **QUA Launches Compact EnviQ RF 30 Membrane Module:** QUA, a Pennsylvania-based membrane manufacturer under parent Aquatech, launched **EnviQ® RF 30**, a compact MBR and submerged ultrafiltration unit for decentralized wastewater treatment. A deployment at a commercial hub in **Noida, India** achieved up to **95%** water recovery for non-potable reuse while reducing fouling and downtime. Built with reinforced PVDF hollow-fiber construction, dual airflow distribution, and backwash capability, the module targets industrial recycling, residential treatment, and RO pre-treatment applications globally.
